PROFESSIONAL SUMMARY

Senior Accountant with over 9 years of experience across Accounts Payable, Inventory, and cost-related activities within both manufacturing and trading environments.

My role goes beyond processing invoices and payments. I focus on understanding the story behind the numbers—reviewing supplier pricing, validating costs, and connecting financial data with real business impact. I have hands-on experience in landed cost calculations and outsourced manufacturing review, ensuring that pricing aligns with actual cost and supports better financial decisions.

I'm also deeply involved in maintaining strong financial controls, tax compliance, and audit readiness while supporting day-to-day operations efficiently.
